

① 处理第一块

$$\begin{aligned}s &= 0, V = 1 \\ m &= 0, \ell = 1, u = 1\end{aligned}$$

② 读入第二块

$$\begin{aligned}s &= \ln 2, V = 3 \\ m' &= \ln 2, r = 1/2 \\ \text{旧 } \ell, u &\text{ 同乘 } 1/2\end{aligned}$$

③ 加入第二块

$$\begin{aligned}\ell' &= 0.5 + 1 = 1.5 \\ u' &= 0.5 + 3 = 3.5\end{aligned}$$

全部块处理完: $u' / \ell' = 7/3$
